

## Goodbye magazine, hello monthly news-sheet.

Since the pandemic we have struggled to maintain a monthly edition of our quality community magazine - mostly due to changes in the personal circumstances of the editorial/print team. So, rather than continue producing a seasonal or quarterly based magazine, we are switching to a monthly news-sheet. The first edition is being worked on now, soon to be collectable from church, and hopefully should go "live" in November onto our websites, and perhaps also social media.

Many thanks to those who over the years have provided news across our community, typed up articles, sent in photos, supported costs by advertising their business (the sale price was less than our costs), arranged advertising revenue, printed the copies, collated and stapled the pages, and delivered to homes. We would still like to hear of events and news which relates to the community and church. Please ensure you have appropriate permission to pass on personal details and contact information.
